-  **2 - 4** Bedrooms
-  **2.5 - 3.5** Bathrooms
-  **1,765+** Sq. Ft.
-  **2** Car Garage

Mountain 333 doubles down on Cadence's working-corner idea — the only plan with the pocket office upstairs as standard and an optional second pocket office finished into the basement. Main level: two-car garage standard (optional three-car), storage nook off the entry, powder, the collection's largest great room at nearly sixteen and a half feet across, an island kitchen, optional dedicated dining. Upstairs, three symmetrical bedrooms with pocket office in the hallway, or an optional two-bedroom-with-loft layout. Primary suite with walk-in, dedicated bath, optional soaker tub / shower combo. Optional finished basement adds a fourth bedroom, third bath, and rec room.

All square footage is approximate. Renderings are artist's conceptions and may vary slightly from the actual home. Homes may be built in reverse of plans shown, depending on site conditions. Minor architectural changes may be made occasionally at the option of the builder. Please contact your Sales Consultant for details.
