Blossom is a two-story home centered around a welcoming front porch and a footprint sized to match.

The main level offers just over 900 square feet of functional living space, anchored by a broad, nearly 18-foot great room, a kitchen with a dedicated pantry, and a dining area that opens directly onto a concrete patio for summer dining. Near the entryway, an optional built-in drop zone with cabinetry provides an organized landing space for backpacks, boots, and daily mail.

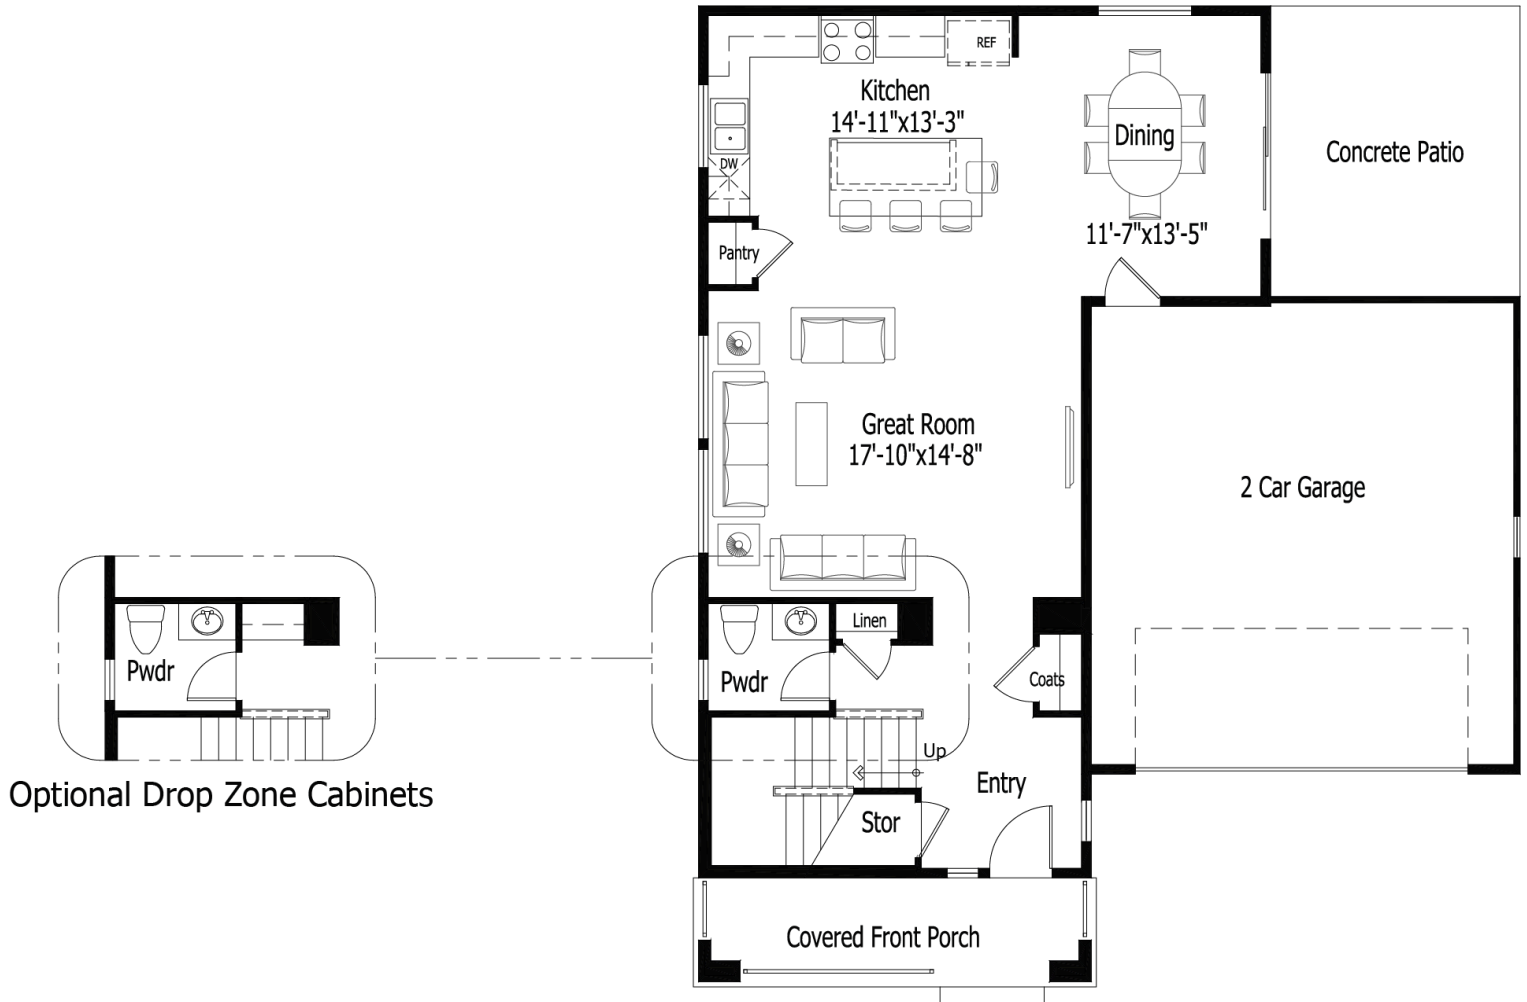

Upstairs houses three bedrooms and a centralized laundry room positioned steps from the hampers. The primary suite extends 16 feet deep, featuring a private bath and a walk-in closet. At the landing, an optional built-in desk provides a flexible surface for daily tasks, study, or ongoing projects.

Efficiently designed yet spacious enough to grow into—a timeless neighborhood staple.

All square footage is approximate. Renderings are artist's conceptions and may vary slightly from the actual home. Homes may be built in reverse of plans shown, depending on site conditions. Minor architectural changes may be made occasionally at the option of the builder. Please contact your Sales Consultant for details.
