Capstone is the two-story that gives you a room you didn't know you needed. Elect the optional third-car garage bay, and something remarkable happens beside it: a proper fifteen-by-eleven finished room appears on the main level, tucked next to the Family Room, effectively set apart from the household's daily traffic. A studio. A hobby room. A place for the model railroad, the sewing table, the drum kit no one else wanted in the living room. Nearby, the rest of the main level runs efficiently — an eighteen-foot Family Room, an optional fireplace, an expanded kitchen with an island on request. Capstone finds room. Then finds more.

All square footage is approximate. Renderings are artist's conceptions and may vary slightly from the actual home. Homes may be built in reverse of plans shown, depending on site conditions. Minor architectural changes may be made occasionally at the option of the builder. Please contact your Sales Consultant for details.
