Priced From
\$619,100

1 Elevation Available

 **3 - 4** Bedrooms

 **2 - 4** Bathrooms

 **1,423+** Sq. Ft.

 **2** Car Garage

Frisco makes a quiet argument for the small luxuries done standard. Most plans in this collection offer a bench in the primary shower as an upgrade. Frisco just includes it. Not as a concession — as a considered piece of everyday furniture, the kind of detail you don't fully appreciate until the morning you're grateful it's there. The rest of the home settles into the same easy competence: a Great Room stretching nearly eighteen feet, a walk-in pantry, an optional designer/gourmet kitchen package, a primary suite fourteen feet square.

All square footage is approximate. Renderings are artist's conceptions and may vary slightly from the actual home. Homes may be built in reverse of plans shown, depending on site conditions. Minor architectural changes may be made occasionally at the option of the builder. Please contact your Sales Consultant for details.
