Jubilee is the ranch that thought ahead. Elect the primary bath roll-in shower configuration, and the plan quietly accommodates a life that may need to change without demanding the house change with it. No lip at the shower entry. No obstacles between the bedroom and the bath. The proportion of the room stays graceful. Just a home that continues to work for its owners on their tenth year as gracefully as it did on their first. The rest follows: a sixteen-foot Great Room, a walk-in pantry, a second bedroom that becomes a private study on request. Jubilee anticipates. Gracefully.

All square footage is approximate. Renderings are artist's conceptions and may vary slightly from the actual home. Homes may be built in reverse of plans shown, depending on site conditions. Minor architectural changes may be made occasionally at the option of the builder. Please contact your Sales Consultant for details.
