 **2.5** Bathrooms

 **1,685+** Sq. Ft.

 **2** Car Garage

Jasmine is a two-story floor plan designed around an upstairs layout that rewrites itself.

Concentrated on open-concept living, the ground floor features a seamless great room, an island kitchen with a walk-in pantry, and a dining area that opens directly to a concrete patio. A covered front porch sits near the entry, flanked by a coat closet and powder room, while the two-car garage opens directly into the kitchen for an effortless grocery drop.

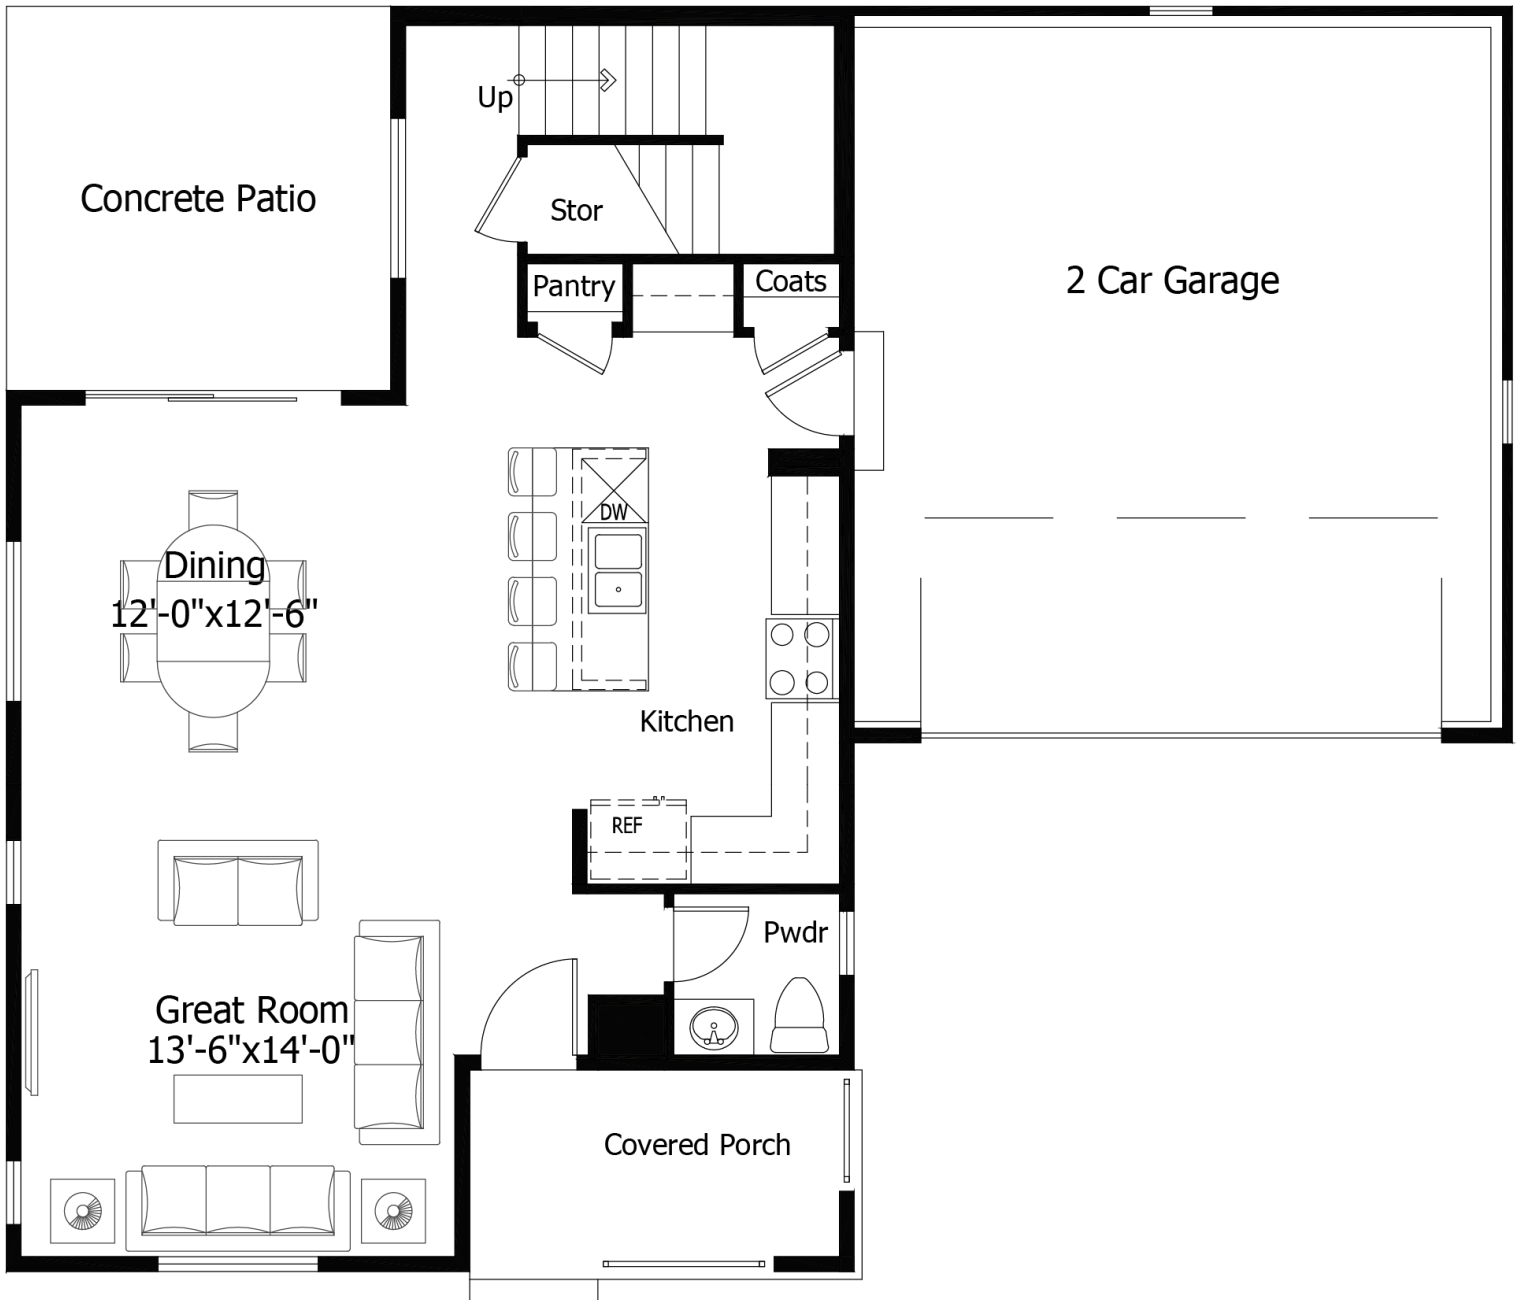

Upstairs, the standard configuration arranges three bedrooms and a dedicated laundry room around a central hallway. Opting for the dual-primary layout transforms the entire level into two equal primary suites—each with its own private bath and walk-in closet—separated by a shared central loft.

Same floor plan, same scale—giving two primary suites equal status.

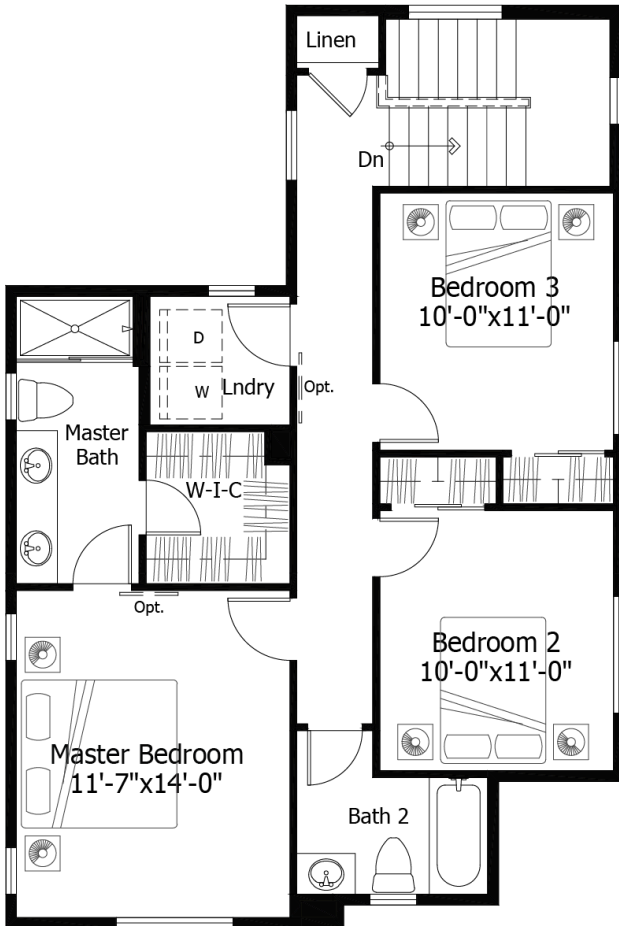

All square footage is approximate. Renderings are artist's conceptions and may vary slightly from the actual home. Homes may be built in reverse of plans shown, depending on site conditions. Minor architectural changes may be made occasionally at the option of the builder. Please contact your Sales Consultant for details.
