Jasmine is a two-story with an upstairs that rewrites itself. Downstairs, one open room does most of the work: great room, island kitchen with walk-in pantry, dining that opens to the patio, covered porch at the front door. Upstairs, three bedrooms standard. Elect the option and the upper level becomes two side-by-side primary suites, each with its own bath and walk-in closet, separated by a shared loft. Same floor. Same scale. A house that lets the household decide.

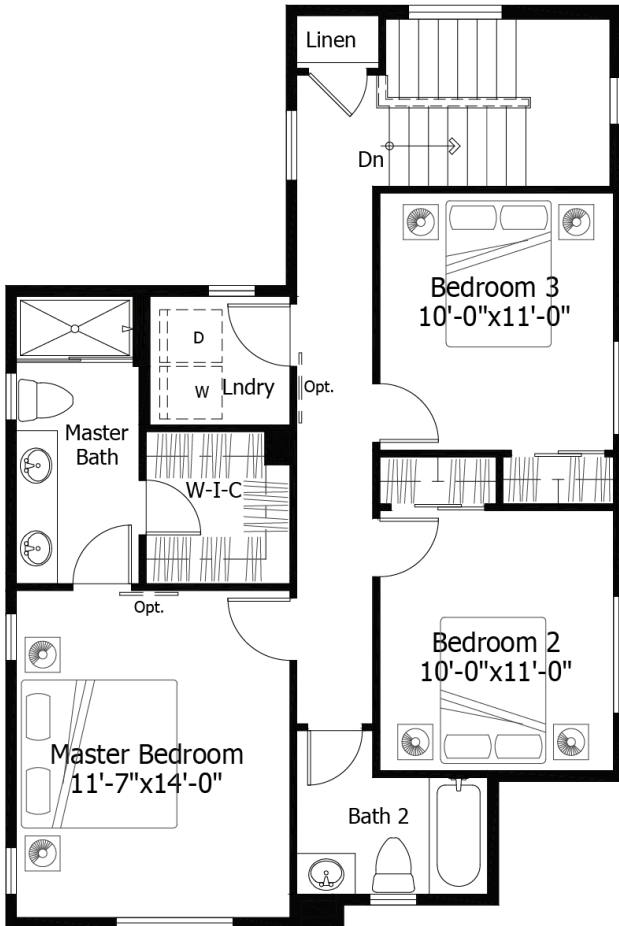

All square footage is approximate. Renderings are artist's conceptions and may vary slightly from the actual home. Homes may be built in reverse of plans shown, depending on site conditions. Minor architectural changes may be made occasionally at the option of the builder. Please contact your Sales Consultant for details.
