Paintbrush 242 sits mid-range in the Portrait Collection at 1,699 square feet, placing a strong structural emphasis on daily arrival and organization.

An Owner's Entry with a built-in drop zone sits directly off the garage return, catching coats, keys, mail, and groceries before reaching the main living spaces. Beyond this functional entry, the kitchen features a central island and walk-in pantry, flowing into a dining room that opens to a covered rear patio. A front-facing living room and a hall powder room complete the ground floor.

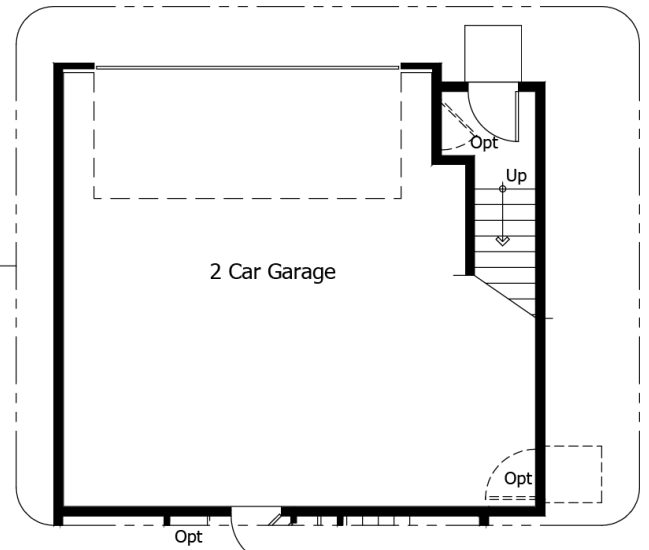

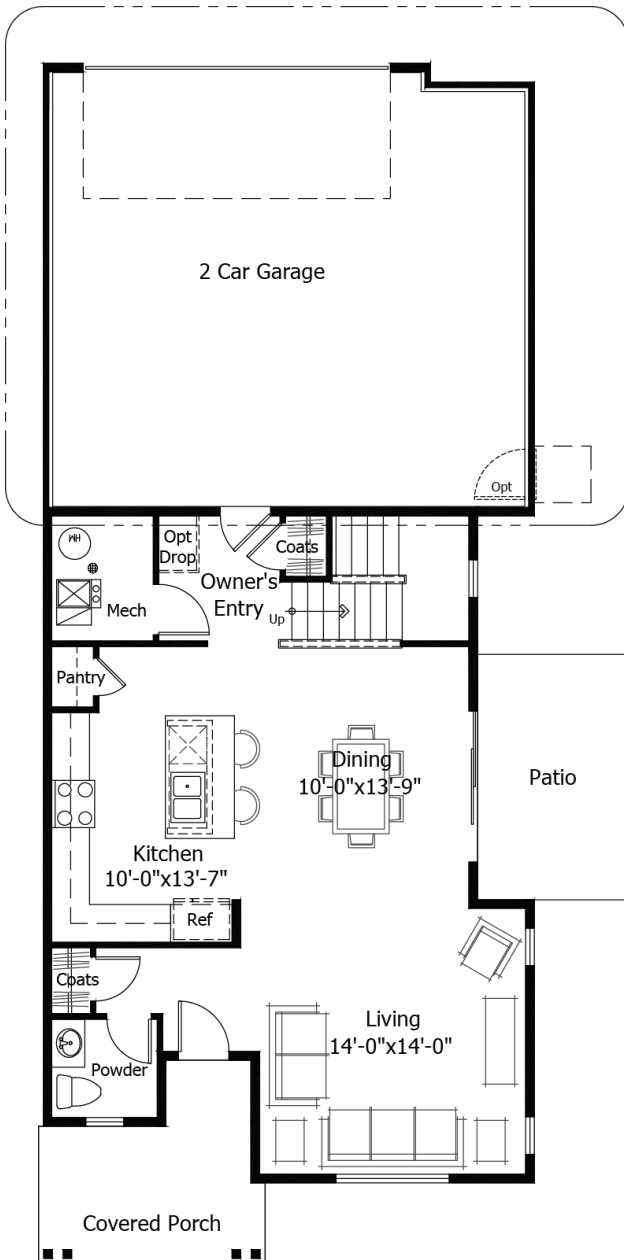

The upper level arranges three bedrooms and two full baths around a primary suite with a walk-in closet, alongside a dedicated laundry room. The optional Expanded Upper adds 608 square feet, offering three finishing choices: deep storage, a multi-generational suite, or a bonus space featuring a fourth bedroom, a full bath, and a expansive 14'-8" x 23' loft with an optional wet bar.

A plan designed to streamline everyday entry and transition.
