The 271 is where the Preamble Collection begins — the smallest home on the roster, and the plan that argues most clearly for what a first home can be. A full home in four hundred fifty-six square feet: a living room open to a covered porch, a nearly-fifteen-foot working kitchen with pantry, a proper bedroom, a full bath, stacked laundry. Up the stair, a finished loft — office, reading room, hangout — with an open-to-below cutout keeping the house airy. Less, here, isn't a compromise. It's the door swinging open on a new chapter.

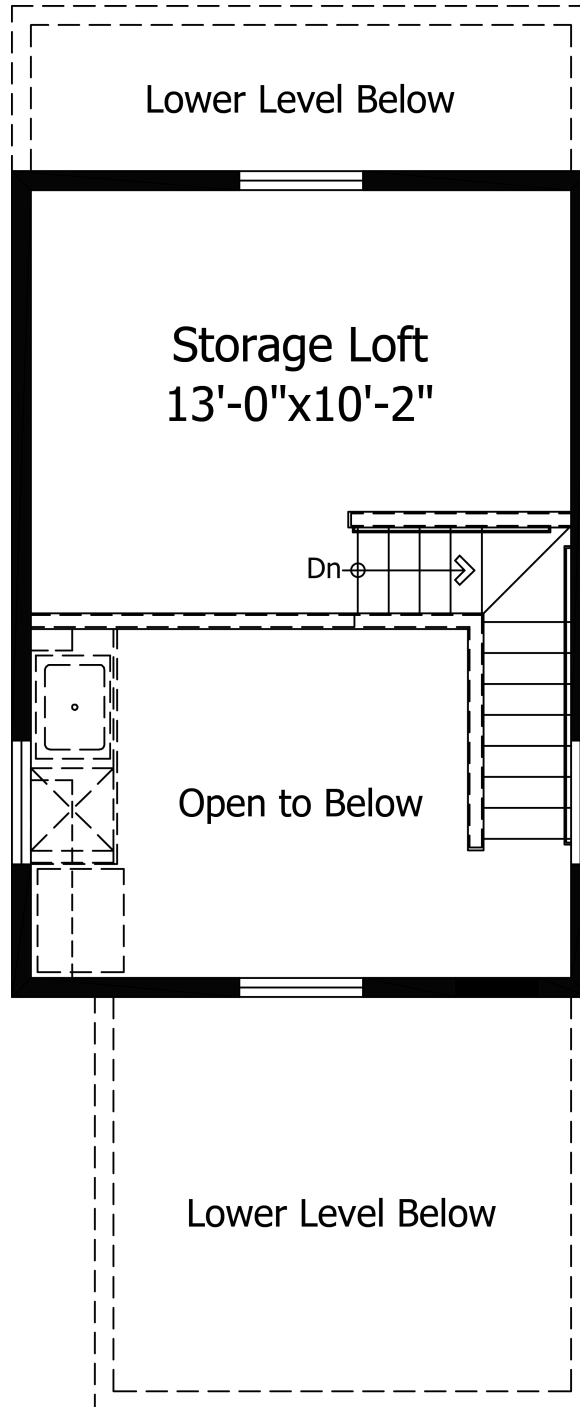

All square footage is approximate. Renderings are artist's conceptions and may vary slightly from the actual home. Homes may be built in reverse of plans shown, depending on site conditions. Minor architectural changes may be made occasionally at the option of the builder. Please contact your Sales Consultant for details.
