The 275 introduces a true two-story floor plan to the Preamble Collection.

The standard elevation incorporates two-tone board-and-batten and lap siding, a hipped side wing, and a twin-post porch, while the optional elevation presents a stacked-shed modern aesthetic with a diagonal timber brace. T

he ground floor includes a living room, an island kitchen measuring 9.5' x 11.5', a primary suite with a walk-in closet, and a full bath. The upper level offers three distinct configurations: a finished loft, a second bedroom paired with a loft, or a second bedroom with a second full bath. An accessible shower with a built-in seat is also available on the upper level.

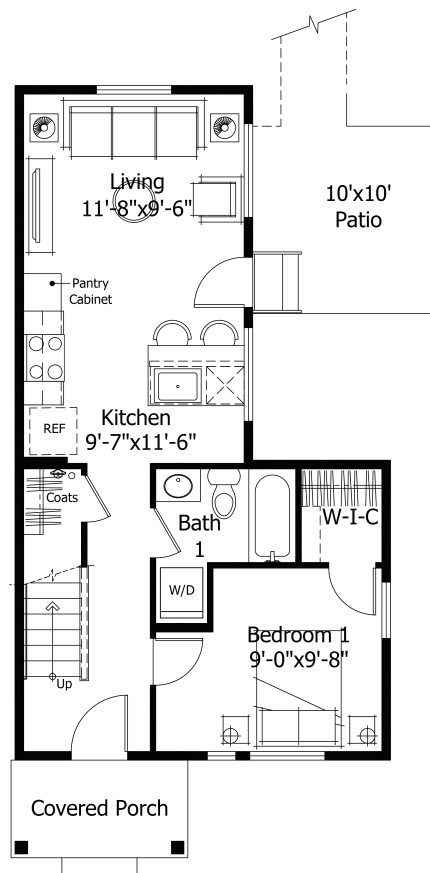

Parking choices include a standard two-car pad, a detached garage, an attached garage, or a garage with a 489-square-foot carriage house above.

A versatile two-story layout designed to adapt.
